MAGNIVA PLATINUM 3 is a premixture of silage additives for the preservation and aerobic stability of gramineas, legumes and perennial grasses forages with more than 30% DM, intended for all animal species.

CHARACTERISTICS AND APPLICATION

- Appearance: fine white/beige powder.
- Solubility: partially soluble in water.

COMPOSITION

Organic sucrose.

• Silage additives:

Lactobacillus hilgardii CNCM I-4785/*Lactobacillus buchneri* NCIMB 40788 (1k20757) in a 1:1 ratio $\geq 7.50 \times 10^{10}$ CFU*/g

Pediococcus pentosaceus NCIMB 12455 (1k2106): $\geq 5.00 \times 10^{10}$ CFU/g

Xylanase (EC 3.2.1.8) from *Trichoderma longibrachiatum* MUCL 39203 (1k) $\geq 30\,000$ IU**/g

Beta-glucanase (EC 3.2.1.6) from *Aspergillus niger* MUCL 39199 (1k) $\geq 5\,750$ IU/g

*Colony Forming Units // **International units

• Binders, anti-caking agents and coagulants:

Coloidal silica (E551b) 10 mg/g

DIRECTIONS FOR USE

MAGNIVA PLATINUM 3 is applied at a rate of 2 g/t of fresh forage. A 100 g sachet treats 50 t of fresh forage, and a 200 g sachet treats 100 t of fresh forage.

Mix sachet contents thoroughly by stirring into a minimum of 500 ml (100 g sachet), and 1 l (200 g sachet) clean potable water at ambient temperature. Transfer to applicator tank and make up to final volume as required, again using clean potable water at ambient temperature. Ensure all applicators are calibrated and thoroughly cleaned to remove any residues from previously used products.

When using standard spray applicators, apply product at minimum of 250 ml/t of fresh forage.

For balers and forage wagons, apply at minimum of 1 l/t of fresh forage.

The product may also be applied using a specific low volume applicator, at a minimum of 10 ml/t of fresh forage (not suitable for balers or forage wagons).

Dilution should be adapted to appropriate applicator types.

REGULATORY AND QUALITY INFORMATION

This product does not contain animal substances nor product or ingredient that might pose a TSE/BSE risk.

Moreover, it does not contain genetically modified material or organism.

The product can be used in organic production under regulation (EC) No 2018/848. Certified by GB-ORG-02.

SAFETY INFORMATION

It is recommended to use protective gloves and mask during handling.

For further information, please refer to the safety data sheet.

STORAGE AND SHELF LIFE

Store in a cool and dry place, in its original unopened packaging.

Shelf life and composition of the product are guaranteed for 24 months from date of production under these conditions.

PACKAGING

Pre-printed cardboard boxes containing laminated film sachets:

- 1 000 g box containing 10 sachets of 100 g;
- 1 000 g box containing 5 sachets of 200 g.

Not all products are available in all markets nor associated claims allowed in all regions.
