German quality sprayers and cut-off machines

Product Information

Motorised backpack pressure sprayer

433

Operational benefits

- This SOLO high-pressure sprayer with 20 l capacity, reaches a controlled operating pressure of up to 30 bar, achieving fine spray mist application, even at extreme heights.
- The 25 cm³ HONDA 4-stroke engine delivers 1.0 HP (DIN). At 30 bar, it can achieve a flow rate of up to 2 l/min. via the push-pull piston pump.
- A practical plug on the underside of the tank allows complete draining of residual liquids.
- This sprayer uses a 60 cm stainless steel spray lance and has a pressure gauge on the sturdy quick-release handle, which allows the pressure to be matched to any application.
- Supplied with a high-quality double flat-jet nozzle, with stainless steel nozzle screens. The efficiency and versatility of this engine powered high pressure sprayer is enhanced with the use of correct attachments.

POWERED by **HONDA™**

Modell	433
Part no.	43303
Engine	HONDA 4-stroke GX 25
Capacity cm ³	25
Nominal capacity l	20
Nozzle	Stainless steel double nozzle
Spray pressure bar	1.0 – 30
Output l/min with standard nozzle	1.0 l at 5 bar 1.4 l at 10 bar 1.9 l at 20 bar 2.3 l at 30 bar
Dry weight kg	9.8
Standard accessories	Stainless steel spray pipe, pressure gauge, padded carrying strap
